# Quality Policy

It is the policy of Green Polymeric Materials to produce quality products that meet requirements of our customers, and other external /internal parties, to assure a reasonable return on investment and help build a long-term career for our associates.

**Green Polymeric Materials maintains the following principles:**

- People:** Our associates are our most valuable resource
- Customer:** Meeting the customer requirements is our number one priority
- Suppliers:** Suppliers are our partners in quality
- Quality:** We will meet the highest Quality System Standards required by our customers.

Our objectives for quality are continuous improvement, reduction of scrap, and to offer best overall value in quality, price, and delivery to our customers.
